HÜRNER WhiteLine HWT 160 M

HÜRNER HWT 160 M

The practical HWT 160 M is a plastic butt-welding system for jointing PE, PP, PVDF pipes and fittings from O.D. 40–160 mm (1½"–6"). This tremendously mobile next-generation welding machine for on-site and in-shop applications is extremely versatile and especially suited for sanitary installations, drain piping, and pressure pipes for water conveyance as well as roof drains and chimney refurbishing systems.

The machine ships with a sturdy stand, an electrical facing tool, heating element, and all reducer inserts and arrives plug-and-play, fully installed.

Its clamps swivel by up to 15 degrees allowing segmented bend welding for O.D. 40–160 mm (1½"–6"). The heating element can be removed from the machine, for use, if needed, next to it, e.g., with HÜRNER's dedicated support stand.

HÜRNER HWT 160 M Features

Part No.	200-260-...
HWT 160 M (230 V), 40–160 mm	-600
HWT 160 M (110 V), 40–160 mm	-700
HWT 160 M (230 V), 1½"–6"	-850
HWT 160 M (110 V), 1½"–6"	-851
Operating range	O.D. (32) 40–160 mm
Materials	PE, PP, other thermoplastic materials
Input voltage	230 V, 50 Hz/60 Hz
Rated power	1.8 kW
Transverse travel of LH carriage	130 mm
Dimensions of basic chassis (W x H x D)	730 x 580 x 430 mm
Weight of basic chassis	33 kg
Overall machine dimensions, incl. of stand (W x H x D)	730 x 1200 x 550 mm
Reducers	(32) 40, 50, 56, 63, 75, 90, 110, 125, 140 mm 1½", 2", 3", 4", 5", 6"
Miscellaneous	Steel storage box for reducers, user's manual, tools
